XLH MATTERS | 2022 MEETING

KYOWA KIRIN

13–14 OCTOBER, MADRID, SPAIN

NEWSLETTER

XLH Matters 2022 – a live, educational meeting with networking and best-practice sharing

Our faculty of XLH experts (from left to right): Prof. Justine Bacchetta, Prof. Francesco Emma, Dr Anna Grandone, Dr Lothar Seefried (co-chair), Dr Pedro Arango Sancho, Dr Ali Alzahrani, Prof. Agnès Linglart (co-chair), Dr Anya Rothenbuhler, Dr Rachel Crowley, Ian Tucker, Dr Kassim Javaid, Dr Adalbert Raimann, Dr Gabriel Mindler, Dr Leonid Zeitlin.

In October 2022, the 2nd annual XLH Matters meeting took place, live in Madrid, building on the success of the virtual 2021 meeting. Through interactive workshops, expert presentations and international networking, the meeting was declared a resounding success by all involved.

Chaired by Professor Agnès Linglart and Dr Lothar Seefried, this meeting provided a rare opportunity to build an international network of adult and paediatric treaters, including endocrinologists, nephrologists, clinical nurse specialists and psychologists.

The esteemed faculty of XLH experts attended in-person and addressed crucial topics in XLH. Healthcare professionals (HCPs) shared best practice, debated clinical case studies and discussed unmet needs and key challenges in providing optimal care for their patients.

XLH Matters 2022 – facts and figures

88 HCPs (faculty and delegates)

18 countries

97% of respondents were **'satisfied'** or **'very satisfied'** with the meeting†

XLH Matters 2022: Outcomes from the meeting

Several delegates at the XLH Matters 2022 meeting said they would **organise an MDT** and **improve collaboration** with other specialists, as well as **develop a transition plan** for adolescents with XLH

We are keen to hear about any changes to your clinical practice as a result of attending this meeting so we can share experiences with other delegates.

Please email your feedback to **xlhmattersteam@sciterion.com**

The faculty answer questions from the audience during the roundtable discussion (top). Dr Gabriel Mindler presents a real-world case study of one of his patients (middle). The delegates engage in discussions during one of the workshops (bottom).

"It was an amazing meeting. People I did not know came to me spontaneously to discuss and interact, sharing cases and experience on XLH and other bone diseases" – **Prof. Linglart, France**

"It was very nice to be there, and no matter how much one knows, discussion with colleagues is always instructive and a learning experience" – **Prof. Emma, Italy**

The delegates were split into adult and paediatric workshop sessions to discuss complex clinical cases

XLH MATTERS 2023 MEETING
